

## **Data Analyst for DATA MIGRATION PROJECT.**

**We at My Australian Career, are setting up an IT Outsourcing Hub in Sri Lanka and require the services of a Data Analyst immediately.**

**We are seeking those that would be able to perform the following tasks:**

- **Perform Data Mapping from source systems to a new enterprise application**
- **Facilitate discussions with Data Owners/SME and the Vendor Team to define the scope of data to be migrated**
- **Support Data Owners to identify issues with data quality at source**
- **Execute Data Migration tasks: generate XML and data loads**
- **Investigate errors encountered during data migration**
- **Liaise with Data Migration Developers, Functional Team and Data Owners to resolve issues**
- **Perform End-to-end Data Reconciliation, ensuring all records are accounted for**
- **Support the finance team to reconcile migrated data**

**To be successful we require someone with the following skills and attribute:**

- **SQL and SSMS**
- **5 Years Data Migration experience including at least 2 full-cycles**
- **Excellent English and ability to communicate with Australian team**
- **Attention to detail**
- **High proficiency with Microsoft Excel**
- **Ideally Finance industry experience (specifically, consumer loans)**
- **Agile delivery (Agile certification an advantage)**
- **JIRA and Confluence experience**
- **DOMINO Experience is an advantage but not essential**

**If you have these skills and attributes, please apply now. Send your cv to [info@myaustraliancareer.com](mailto:info@myaustraliancareer.com)**
