Assistant Manager – Information Security

Singer (Sri Lanka) PLC operates with the vision to be the market leader in elevating and enriching lives in Sri Lanka.

The job holder will be responsible for the development and implementation of company-wide programs on IT Governance, Risk, Cyber Security, Privacy and Compliance. The job holder will also be required to identify potential risks, consult on possible solutions, and assist in determining the best balance of risk, cost, and business benefit to adequately protect critical business assets.

Job Profile

- Develop and maintain information security policies, procedures and standards in accordance with ISO 27001
- Identify problems arising from abnormalities and security violations through periodic audits
- Implement security improvements by assessing current situation and evaluation of trends
- Coordinate response to information security incidents
- Create user awareness and build an information security culture
- Carry-out periodic vulnerability assessments and coordinate necessary patching

Personal Profile

- Degree in IT or related qualification from a recognized university / Institute
- Security certifications including CISSP, CISM, CISA or related/comparable credentials.
- Minimum of 3 Years' experience in a similar capacity
- Experience in computing and information security (including on Internet technology and Cyber security)
- Ability to relate business requirements and risks to key business stakeholders.

If you match the above profile, please submit your application with details of two non-related referees via our Online Application form or email your CV to careers@singersl.com within 7 days of this advertisement.
