

VERGER

THE NATURAL COMPANY

BE A PART OF OUR PURPOSE.

At Verger we aim to build on the premium legacy of Ceylon spices by showcasing the natural resources of the island on the global stage, with a renewed focus on ethical & sustainable sourcing and uplifting the livelihoods of the communities that, for generations, have tended to the island's spices.

As we continue to build on this vision, we are on the search of talented individuals driven the passion to make an impact to join our team.

MANAGEMENT TRAINEE - QC & COMPLIANCE / TRAINEE MICROBIOLOGIST

Your role will involve,

- Compile and deliver customer questionnaires promptly and ensure timely submission of related documents effectively.
- Review product specifications meticulously and collaborate with internal departments to confirm and maintain product standards.
- Assist in Research & Development (R&D) and New Product Development (NPD) projects under the guidance of the Manager-QA and Compliance.
- Adhere to Good Laboratory Practices (GLP) to ensure accuracy and reliability in all processes.
- Collect samples from predefined locations with precision and prepare samples meticulously for analysis, demonstrating attention to detail.
- Support daily microbiology laboratory activities and engage in Quality Control (QC)-related activities for seamless operations.
- Sanitize and clean glassware and equipment to maintain a pristine laboratory environment.

You should have,

- Bachelor's degree in chemistry, Agriculture or Biological Sciences or G.C.E (A/L) Science stream with minimum passes for Chemistry and Biology.
- Knowledge of Good Laboratory Practices (GLP).
- Good communication in skills with proficiency in English.
- Ability to work with cross-functional teams and manage multiple projects while working on shifts/extended and/or tight deadlines as needed.
