

# WE'RE HIRING!

anscom  
T E C H N O L O G I E S

Anscom is an automation design studio established in 2011 by technology professionals. We integrate world-class ELV, audio/visual, security and automation solutions for properties worldwide. Our scope of work covers design, supply, installation, configuration, and after-sales service & support.

## STORE ASSISTANT

As a Store Assistant, you will play a crucial role in supporting our Store Executive in managing and organizing the inventory and supplies. Your responsibilities will include receiving, storing, and issuing materials, equipment, and other items from the stockroom, as well as maintaining accurate records of all transactions.
