

## WE ARE **HIRING**

OREL IT is a global technology company that specializes in Artificial Intelligence Services. The company is making big waves across the globe in the spheres of software development along with AI based research and development, Data Science solutions, IT outsourcing, UI/UX, and Cloud services. It's inspiring the next generation and changing the future through a unique approach to knowledge delivery and skills enhancement. OREL IT has the distinction of being the largest IT employer in Sri Lanka.

### **MANAGEMENT TRAINEE – CLOUD FINOPS**

#### **RESPONSIBILITIES**

- Monitoring cloud usage and spending data to identify cost-saving opportunities.
- Developing and implementing strategies to optimize cloud costs.
- Collaborating with finance, operations, and technology teams to drive cost optimization initiatives.
- Analyzing cloud usage patterns and trends to identify areas for optimization.
- Recommending changes to cloud service usage, pricing models, and purchasing options.
- Developing and maintaining financial models to forecast and track cloud costs.
- Working with cloud service providers to negotiate pricing and contracts.
- Creating reports and dashboards to track and communicate cloud cost optimization efforts to stakeholders.

#### **QUALIFICATIONS**

- Basic understanding of cloud computing services, including cloud infrastructure, software, and platform as a service (IaaS, SaaS, and PaaS), as well as experience working with major cloud service providers such as AWS, Azure, and Google Cloud.
- Basic understanding in financial management principles and experience in financial analysis, budgeting, forecasting, and reporting. This includes experience in financial modeling and cost analysis.
- Proficiency in data analysis tools and techniques, including data visualization, statistical analysis, and machine learning. Experience with SQL, Python, R, and other data analysis tools is also important.
- Strong communication and collaboration skills are essential, as FinOps analysts need to work closely with cross-functional teams, including finance, operations, and technology, to achieve cost optimization goals.
